

January 24, 2014

Mr. Thomas S. Burack, Chairman  
New Hampshire Site Evaluation Committee  
Department of Environmental Services  
29 Hazen Drive, PO Box 95  
Concord, NH 03302-0095

Dear Mr. Burack,

We are writing to inform the Site Evaluation Committee of the Town of Alexandria's stance regarding the proposed Wild Meadows Wind Farm, the application for which was filed with the Committee in December. Shortly thereafter the application was received in this town, and since then has been publicly available for our citizens to examine in detail.

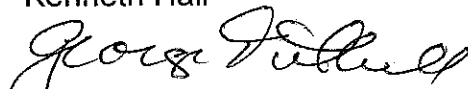

In a public meeting on January 7, as well as in an outpouring of letters, emails and phone calls received recently in our office, the Town's residents and taxpayers have registered strong opposition to the project. This sentiment is consistent with last March's vote on a warrant article of opposition, which passed by a 70%/30% margin.

It is our understanding that Committee takes into serious consideration the views of those communities in which such installations would be located. We therefore feel it important at this stage to communicate to you the general sentiment of our citizens.

Yours,

Kenneth Hall

George Tuthill

Donald Sharp

Alexandria Selectboard
