

CURRENT USE ASSESSMENT MATRIX

Property Owner: _____

Address: _____

To assist the Selectmen in determining where in the current use forest land assessment range each particular parcel should be assess, please circle your best estimate of the "grade", "location", and "site quality" for each parcel in the grid below. Also, please attach a copy of a topographical map and/or soil map with the outline of your parcel(s) indicated on the maps. Factors affecting "grade", "location", and "site quality" are specified in current use rule CUB 304.05 as follows:

Grade: (a) steep slopes; (b) the presence of boulders and rock outcrops; (c) ravines; (d) wetland or bodies of water; and (e) any other physical qualifications

Location: (a) legal restrictions to access; (b) abutting a maintained public highway; or (c) any other characteristics affecting accessibility

Site Quality: (a) the quality of soil; (b) the climate and elevation; (c) physical geography; and (d) any other factors that would affect the management of the land

Parcel Location & Number of Acres	Characteristics of Land			
	Grade Location Site Quality	Good Good Good	Average Average Average	Poor Poor Poor
	Grade Location Site Quality	Good Good Good	Average Average Average	Poor Poor Poor
	Grade Location Site Quality	Good Good Good	Average Average Average	Poor Poor Poor
	Grade Location Site Quality	Good Good Good	Average Average Average	Poor Poor Poor
	Grade Location Site Quality	Good Good Good	Average Average Average	Poor Poor Poor
