

Minutes Update from the Cancelled Meeting of 29 September 2021

Unfortunately, September was a busy month for all of us on the Commission, and availability was further restricted due to illness, thus the need to cancel our usual meeting. Prior to our scheduled meeting, we had scheduled other meetings in preparation; however, for various reasons, they too were cancelled, so the necessary preparation for the meeting on the 29th couldn't be completed – basically, September was a lost month, and everything has been moved forward to October.

The Commission has several important projects either in the planning phase or in various stages of completion, and these issues require input from all of our Commission members moving forward. All relevant September agenda items will be moved to the October meeting.
