- ❖ **Business/Appointments**
 - Transfer Station
 - Telephone line installation is still pending.
 - Scale for electronics has been purchased; need to determine pricing for items with charging per pound to start in 2027. There was discussion on the need for the scale to be calibrated
 - There was a discussion on the disposal of lithium batteries. The Transfer Station does not currently accept lithium batteries. Mr. Sirard said that someone is looking into disposal options.
 - Town of Bristol
 - Lynn Avenue
 - The Select Board discussed their review of the files regarding the subdivision and the road was surveyed and lengthened with each phase of the subdivision. There was discussion regarding concerns that the person that did the subdivision (Bedard) was on the planning board at the time; a review of the minutes found that he recused himself from discussion and voting on the subdivision.
 - The Select Board discussed a potential arrangement with the town of Bristol to adopt the portion of the road in Bristol as a town road and Bristol performing winter maintenance and Alexandria doing all other maintenance.
 - The Road Agent will need to review the road to determine if any work is required to bring the road up to Class V standards. If work is required, a betterment district would be formed to distribute the cost of any road improvements to the property owners. This would require a vote of all of the property owners on Lynn Avenue.
 - Cummings Beach
 - The Town of Bristol has offered to provide 30 parking passes for Cummings Beach in Bristol to Alexandria residents. The cost of the permits would be around ten or fifteen dollars and would be distributed via a lottery system.
 - There was discussion on concerns of low hanging utility lines on Mount Cardigan Road and Town Pound Road; the utility companies have been informed of the low wires.

Meeting adjourned 6:30 pm

Respectfully submitted, Jennifer Dostie, Administrative Assistant
